

RYAN RUTLEDGE

SOFTWARE DEVELOPER / FULL-STACK DEVELOPER

PROFILE

Passionate about developing software systems that solve business problems in agriculture and farm niches. Strengthening my skills in AI/LLM development and design has become my post-graduation curriculum for myself. I have a strong desire to continue improving these skills with the Software Developer position.

EDUCATION

Bachelor of Science in Information Technology
Web and Software Design/Development
Purdue University
2022 – 2025

Associate Degree in General Education
Ivy Tech Community College
2020-2022

WORK EXPERIENCE

Freelance / RayneBowTech LLC

2025 – Present

- Design and Deploy Responsive Websites for local small businesses
- Work directly with clients to gather the needs of the client and what goals they have for their business
- Develop a plan of action to reach these goals through interactive site behaviors
- Provide branding, hosting setup and technical consulting

Living Lab Internship (Purdue University)

FALL 2025

- Created and launched a fully responsive WordPress site for the Living Lab Program at Purdue University. This project involved developing APIs through WordPress and coordinating branding with existing Purdue pages
- Led the Web Division within an IT team to design an IT Escape Room, which can be hosted locally to assess incoming students
